McGraw-Hill Education - Europe. Paperback. Book Condition: new. BRAND NEW, Experience Psychology (2nd Revised edition), Laura A. King, Do you want your students to just take psychology or to experience psychology? "Experience Psychology" is a complete learning system that empowers students to personally, critically, and actively experience the impact of psychology in everyday life. "Experience Psychology" is about, well, experience - our own behaviors; our relationships at home and in our communities, in school and at work; and our interactions in different learning environments. Grounded in meaningful real-world contexts, Experience Psychology's contemporary examples, personalized author notes, and applied exercises speak directly to students, allowing them to engage with psychology and to learn verbally, visually, and experientially - by reading, seeing, and doing. With virtually no administrative overhead, instructors using LearnSmart are reporting an increase in student performance by a letter-grade or more. Throughout "Experience Psychology", students find a wealth of personal pedagogical "asides" directly from Laura King to guide their understanding and stimulate their interest as they read. Some of these helpful notes highlight crucial terms and concepts; others prompt students to think critically about the complexities of the issues; other notes encourage students to apply what they have learned to their prior reading or to a new situation. These mini-conversations between author and students help develop...
