DARK SIDE OF A MOUNTAIN: CULTURE IDEOLOGY IN MEDICINE (PAPERBACK)

Createspace, United States, 2014. Paperback. Book Condition: New. Dr Veronika Valdova (illustrator). 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Dark Side of a Mountain is a historical study into the effects of ideology, religion and culture on medical science. Section The Code is dedicated to the first public health manual on record: The Book of Leviticus, and to its 12th century annotation by Moses Maimonides. Causal relationship is found between rejection of food laws by early Christians, suppression of certain parts of the Bible by Catholic Church, measures against heretics, and resulting inability of medieval populations to contain plague which ravaged Europe in the 6th and 14th century. Truth table illustrates the causes and essential conditions of the Justinian plague and the 1348 plague. Essential conditions of the Justinian Plague were loss of autonomy, lowering standard of living including hygiene due to the onset feudalism, and strategic dependence of Byzantine Empire on imports of essential commodities from infected regions. The plague of 1348 brought about change of life-science doctrine to a set of religious dogmas. The argument goes that the root cause of the pandemic was a flawed life-science doctrine, which could not be challenged due to ideological and religious terror. Quest for heretics effectively eliminated all people who had the ability to identify correctly the causes of plague and who were able to suggest rational measures against its spread. This is presented in the context of information available at that time on the example of measures against leprosy as described in the Old Testament. Section Medical Oaths presents different concepts in medical ethics around the globe. The meaning of medical oath in ancient Greece was far less symbolic than it is now - it was a legal act. Today, medical profession is...
