MULTI-RESONANT CONVERTERS AS PHOTOVOLTAIC MODULE-INTEGRATED MAXIMUM POWER POINT TRACKER

Shaker Verlag Nov 2010, 2010. Buch. Book Condition: Neu. 21x14.8x cm. Neuware - Module-integrated photovoltaic (PV) systems show high robustness against mismatching of the PV-generator, e.g. reasoned by partial shading. Thus, the surface potential for PV can be increased by the unevenly irradiated surfaces using module-integrated PV. Consequently, the important, already sealed surfaces in urban areas can be utilized to contribute to a sustainable energy supply. Different module-integrated system concepts are reviewed and compared. The parallel module-integrated converter concept is...

Reviews

This publication is fantastic. It really is full of knowledge and wisdom You are going to like just how the author write this publication.

-- **Harmon Watsica II**

The very best publication i possibly read. it was writtern very perfectly and useful. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Wilhelm Predovic**

This is actually the very best publication i have read through till now. It is definitely simplistic but unexpected situations in the 50 % in the pdf. You can expect to like just how the article writer compose this pdf.
