Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from A Guide Manual to the Mammoth Cave of Kentucky The object of the author of this little work is to place before the public, in a popular style, the Chemistry, Geology, and Zoology, of the Mammoth Cave, together with a brief description of all the rooms, avenues, domes, rivers, etc., that are worth the trouble of exploring. Anything like an accurate description of the Cave has not been attempted. In fact, such an effort, from the very nature of the subject, would be attended with failure. The beauty, sublimity and grandeur of the Mammoth Cave, to be appreciated, must be seen. The awful, overpowering silence, the deep darkness, together with a knowledge of the fact that the time which nature required to build this subterranean region is lost in the mists of infinity, produce a combination of emotions which are never experienced in the upper world. The sole object aimed at, has been to furnish to those who have never visited the Cave, some idea of its size and formation, and to those who wish to explore it, a guide-manual, which will do away with the necessity of taking notes, and from which they can select those point, which, should their time be limited, they are most desirous of visiting. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
