Brand New Book ***** Print on Demand *****.Excerpt from Rural Chemistry: An Elementary Introduction to the Study of the Science in Its Relation to Agriculture and the Arts of Life The following pages formed the substance of a short series of articles on Chemistry, which originally appeared in the columns of the Gardeners Chronicle. The interest which they excited in the readers of that journal, has led to their republication in a separate and more complete form. It would have been easy to have greatly increased the size of the book; and indeed it was frequently very difficult to select from the mass of information which exists those facts which appeared most worthy of notice. The original object of the Author was to give such an elementary sketch of the science as should enable those ignorant of the subject more readily to comprehend the works of the various authors who have written on Agricultural Chemistry.
