The Era of International Space Station Utilization: Perspectives on Strategy from International Research Leaders (Paperback)

By National Aeronautics and Administration

Createspace, United States, 2012. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Human spaceflight is entering a new era. The assembly of the International Space Station (ISS) will be completed in 2010.2 Supported by a full six-person crew for the first time, it is ready to put its full capabilities to work. While the ISS partners can be proud of having completed one of the most ambitious engineering projects ever conceived, the world at large also will judge the ISS by what is achieved in the utilization phase. In short, the full success of the ISS Program depends on the utilization achievements in the coming years. The people of countries participating in the ISS will expect no less. For more than 15 years, the ISS partnership mastered financial and technical challenges, and weathered changes in national policies and governments. This mastery proves that nations can persist and achieve ambitious long-term goals that are very difficult. The ISS partnership is a model of what will be needed if an ambitious program of exploration beyond low-Earth orbit (LEO) is to move forward. The present partnership can be enriched by collaboration as we...
